DOG
BOWLS & FEEDERS

The innovative anti-scoff bowls are recommended by veterinarians. Thanks to their ergonomic design these bowls stimulate the animal to eat properly promoting satiety, preventing obesity, and improving digestion.
They are easy to clean, light and portable. A fun way to turn the meal of your pet in a stimulating and enjoyable game!

JUMP DOG TOY

M-PETS JUMP dog toys with suction cups are specially designed with bite-resistant material to grind and clean their teeth while they are having fun. They include slots that slowly release treats as your pet plays. Long-term use can effectively improve your dog's IQ, interest, agility and condition.

Tips:

- Moisten the suction cup and then place your foot on to ensure the best suction power
- Ensure that the floor surface is smooth and flat, such as ceramic floor, door and windows

GREENBO
NATURAL RUBBER BONES

GREENBO NATURAL RUBBER DOG TOYS ARE SUPER DURABLE
Natural rubber allows for extreme durability which can withstand the most severe chewing.

GREENBO NATURAL RUBBER DOG TOYS PROMOTE CANINE DENTAL HYGIENE
Chewing on natural rubber dog toys helps remove plaque and tartar build-up, especially on those hard to reach back molars.

GREENBO NATURAL RUBBER DOG TOYS ALLOW FOR IMPROVED SAFETY
With dog bones made from natural rubber, the toys will always have softer, rounded edges. And won't break apart or splinter.

M-PETS™ BLOOM balls made with E-TPU technology

E-TPU technology is developed in conjunction with the ADIDAS Innovation Team (AIT) and German chemists BASF. Unlike other traditional dog throwing balls, BLOOM dog balls are non-toxic, made of food-grade, durable material that won't break no matter how hard your dog throws them. The balls will last for any length of time for your dog's powerful jaws. Dog chew toy balls are durable yet very lightweight, highly elastic that could even be floated on water and easily cleaned.

Features of E-TPU:

- Super response: the bounce rate could be up to 63%.
- Low density: 100-200kg/m3.
- High elasticity and softness even at low temperature.
- Very low abrasion resistance
- High bending resistance
- Eco-friendly material : All raw materials and processes are 100% environment-friendly.

LIBERTY
RETRACTABLE LEASH

M-PETSTM LIBERTY Retractable Leashes is a real eye-catcher, perfectly coordinated in a two-tone design equipped with an ergono- mic handle with a secure feel. The built-in tech- nology ensures reliable & comfortable han- dling during every walk and provides space for the pet's natural urge to move and explore, without restricting the pet's secure control.

Features:

- High strength nylon traction tape, easy adjust retraction, 360° Tangle-free movement.
- Super comfortable grip, ergonomic anti-slip ABS plastic case handle.
- Quick lock, Pause and Unlock feature - easy roll-on and roll-off with your thumb.
- Heavy duty internal coil for consistent retrac- tion, can easily control your pet by release or retract leash tape.
- Noiseless design for daily use.

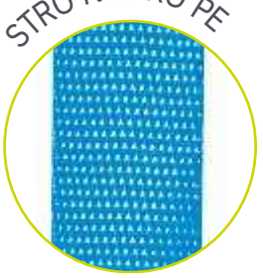

Non tangle movement

AUTOBRAKE
RETRACTABLE LEASH

The outside world is full of excitement: from passing cars to walking pedestrians, it's unrealistic for our dogs not to be distracted during a walk.

To **avoid any dangerous situations**, to help **to protect** your arm and your dog's neck from getting hurt, we introduce our new range of **M-PETS AUTOBRAKE Retractable Leashes:**

> Similar to the seat belts in cars, the retractable leash will automatically locks when a sudden force is applied to it. Pull the leash back to lock it and prevent the dog from extending the leash.

> Similar to the ABS in cars, the retractable leash will simultaneously slow down your dog's speed and absorb the force applied to your arm. When your dog stops pulling on the leash, the tension will relax and the leash will automatically return to normal.

This new AUTOBRAKE system will surely prevent dangerous situations from occurring. Increasing safety for both you and your dog.

Sixties

The 60s was a decade of unprecedented change. Political, social, cultural and aesthetic upheavals left no one unaffected. The 60s looked forward to the future, the motto in the design world was now 'everything is possible'. This optimism was driven by technological progress, economic recovery and a young generation that longed not only for emotional, but also visual sensuality.

In the 60s the design objects provoke the intellect, challenging the perception of the users. This is exactly what **M-PETS SIXSTIES range** wants to bring to life: imaginative shapes, bright colours, softly rounded plastic objects made in ABS plastic, combing aesthetics with ergonomics, consideration for the environment together with advanced technology.

M-PETS™ SUBMARINE Carrier has a curved inner shape that allows the pet to roll freely inside and due to its design pets can enjoy the scenery while travelling. It includes a built-in 0.3L food container and soft padding that can make pets enjoy a comfortable journey.

- There are symmetrical air outlets on both sides, with a large area of ventilation holes at the back, which can provide the best airflow. There is a built-in electric fan at the top of the carrier to bring more fresh air into the pet's cage, making the pet's journey more pleasant.
- Built-in soft led night light, just touch the light control button to gradually illuminate the interior space,
- The carrier is made of ABS and PC, it is durable, waterproof and easy to clean. Comes with TPE material handle, convenient and portable. Very suitable for small dogs and medium-sized domestic cats.
- It is perfect for travelling by plane, underground or car. The dimensions of the pet carrier are 49 cm (length) x 32 cm (width) x 30 cm (height), and it is recommended for pets under 8 kgs.

MAX 8 kg (17.6 lbs) | Built-in fan | Night light | Cushion | Ventilation | Large opening | 2x AAA (not included) | Food storage | Shoulder strap | Durable
